INTELLIGENT TRANSPORT AND MOBILITY AS A SERVICE GLOBAL FORUM

Disruptive Innovations Changing the Future of Mobility Today

Main Forum: 2 – 3 September 2019
Post-Forum Site Tour: 4 September 2019
Venue: Radisson Blu Plaza Hotel Sydney, Australia

KEY THEMES:

Volocopter Air Taxis - Bringing Mobility as a Service into the Third Dimension

Innovations in Mobility as a Service

On-Demand Public Transport

World’s First Autonomous Taxi

AI in Predicting Traffic Conditions And Creating Adaptive Network Systems

Innovations in V2X and Connected Vehicles

Future of Smart Roads and Intelligent Infrastructures

Advanced Data Analytics and Transportation Modelling In Urban Cities

Uber Air: How On-demand Flying Taxi Can Radically Improve Urban Mobility

Learning Lessons from Deployment of Autonomous Cars and Shuttles

Latest Developments in Automated Truck Platooning

How Hyperloop Will Transform the Transportation Industry

GLOBAL THOUGHT LEADERS & KEY SPEAKERS INCLUDE:

SENATOR JANET RICE
Senator for Victoria
Transport and Infrastructure spokesperson

NICK ABRAHIM
Deputy Chief Executive Officer
NSW Taxi Council

TONY EID
Executive Director, Future Network Delivery
Sydney Trains

CHARLES CASUSCELLI RFD
Chief Executive Officer
Western Sydney Regional Organisation of Councils

ISHRA BAKSH
Executive Director, Mobility as a Service
Department of Transport and Main Roads

RITA EXCELL
Executive Director
ADVI

EVAN WALKER
Director, Smart Innovation Centre
Transport for NSW

NELL PAYNE
Executive General Manager Monitoring Assurance National Road and Motorists Association (NRMA)

INTELLIGENT TRANSPORT AND MOBILITY AS A SERVICE GLOBAL FORUM

Disruptive Innovations Changing the Future of Mobility Today

Main Forum: 2 – 3 September 2019
Post – Forum Site Tour: 4 September 2019
Venue: Radisson Blu Plaza Hotel Sydney, Australia

THE FORUM AT A GLANCE

DAY 1: MONDAY, 2 SEPTEMBER 2019

• Keynote: Updates on NSW Government’s $123 Million in Developing the World’s Most Advanced Transport Management System
• Innovations in Mobility as a Service: Roll-Out Plans & Deployment Challenges
• Innovations and Emerging Technologies in V2X and Co-Operative ITS
• AI and Machine Learning in Creating Adaptive Network Systems
• Learning Lessons from Deployment of Autonomous Cars and Shuttles

All delegates are also invited to join us at our Champagne Networking Session. Enjoy a perfect glass of champagne, build exclusive networks and exchange powerful insights with delegates.

DAY 2: TUESDAY, 3 SEPTEMBER 2019

• Data Analytics and Transportation Modelling In Fast-Changing Urban Infrastructure
• Advancement of Smart Mobility in Singapore With the World’s First Autonomous Taxi
• On-Demand Public Transport: Lessons Learnt from Deployment
• Volocopter Air Taxis - Bringing Mobility as a Service into the Third Dimension
• Latest Developments in Automated Truck Platooning, Hyperloop and More

DAY 3: WEDNESDAY, 4 SEPTEMBER 2019

• Site Tour A: Autonomous NSW Shuttle Deployment at Sydney Olympic Park
• Site Tour B: Intelligent Transport Research Centre at University of Sydney’s Australian Centre for Field Robotics.
• Site Tour C: Uber Air Taxis & Flying Cars Presentation Innovations at University of Auckland

POWERFUL REASONS TO ATTEND THE FORUM

6

• Discover breakthrough innovations that are shaping the future of mobility today - from Hyperloop to Volocopter, Uber Air and V2X
• Gain insights into mobility as a service’s current state of play, global success case studies and business models
• Understand how 5G will play an exciting role in development of autonomous cars, shuttles and buses
• Visit autonomous shuttle and next generation mobility site tours to understand deployment challenges and new technology implementations
• Hear from 20+ case studies from 30+ transport leaders globally
• Network with global transport forum leaders to catalyze new ideas and shape the future of transport today

PARTICIPATING COMPANIES INCLUDE:

UBER  QUEENSLAND GOVERNMENT  THE GREENS
NSW  SUNCORP  Transport for NSW
Sydney Trains  WSRAC  RACQ
NRMA  Transport for NSW

Call: +61 3 9909 7310 | Email: admissions@claridenglobal.com | Visit: http://www.claridenglobal.com

Uber’s ‘flying cars’ could be operational in Sydney or Melbourne by 2020. Uber Air has recently submitted a plan to both cities to test air taxis and bring mobility as a service into the third dimension. If either Sydney or Melbourne is successful, the tech giant would work with local developers to build up to 25 “Skyports” in and around the city for landing and launching aircraft. In this site tour, you will hear Uber Air’s plan in bringing air mobility as a third dimension to Australia that will transform Australia’s entire transportation landscape.

Parking is one of the great banes of traffic; an IBM study found that approximately 30% of a city’s traffic congestion is caused by drivers searching for a parking spot. But smart parking systems are now making it easier for drivers to find vacant parking spaces, in turn freeing up the roads - which benefits drivers, commuters and the environment alike. In Mosman, where a 2016 survey revealed that 33% of locals think traffic and parking will be the big issue facing the area over the next decade, such technology is already taking off. Join us for a visit to Mosman Council to see their smart parking tech in action: how it improves the parking user experience, what challenges were faced and overcome, what opportunities for improvement remain and more.

The state government of NSW has recently reinforced its position on driverless technology, committing to a new “Centre of Excellence” for autonomous cars. In this site tour, you will visit recent deployment of autonomous shuttle at Sydney Olympic Park and Armidale CBD where you will discover the deployment challenges and learning lessons from autonomous shuttle. The five-kilometre route is currently the longest driverless shuttle deployment in Australia and, due to the city’s challenging road infrastructure and terrain, is understood to be among the more complex routes for automated vehicles.
WHO YOU WILL MEET:
Industries (including and not limited to)
• Transportation
• Logistics
• Rail
• Government Administration
• Automotive
• Supply Chain
• Civil Engineering
• Information Technology
• Trucking
• City Councils

Seniority Level: 70% of Participants will be Director Levels & Above
10 REASONS TO JOIN US AT THE GLOBAL INTELLIGENT TRANSPORT AND MOBILITY AS A SERVICE FORUM

Disruptive Innovations Changing the Future of Mobility Today

2 - 4 SEPTEMBER 2019 | RADISSON BLU PLAZA HOTEL SYDNEY

1. Join the only Intelligent Transport conference in Australia that covers a comprehensive range of innovative topics - Uber Air, Autonomous Truck Platooning, 5G, Flying Taxis, Hyperloop and Mobility as a Service

2. International and local case studies shared by prominent speakers who have played imperative roles in realizing Intelligent Transport and Mobility as a Service initiatives

3. Proven best practices and practical insights on what Intelligent Transport needs to succeed and how they can be implemented cost-effectively

4. Interactive, outcome-focused roundtable discussions and panels that aim to answer pressing questions and assist delegates in mapping out their Intelligent Transport journeys

5. An exclusive platform for industry experts to address major Intelligent Transport and Mobility as a Service challenges and share solutions covering the various aspects of these

6. A valuable opportunity to engage and forge partnerships with thought leaders, business leaders, policymakers and much more

7. Get a Chance to Engage and Mingle with Entrepreneurs, Investors and Business Leaders From ITS Industry

8. Learn more about the technologies and methodologies underpinning the successful deployment of cutting-edge transportation advancements

9. Understand the Impact of the Disruptive Innovation on Current and Future of Transport System

10. Invaluable Takeaways from International and Local Speakers and Practical insights on How to Combat Traffic Congestion

Call: +61 3 9909 7310 | Email: admissions@claridenglobal.com | Visit: http://www.claridenglobal.com
When vehicles are connected to one another and are able to exchange information with the infrastructure, the accident risk is reduced and pollutant emissions go down. Vehicle-to-everything communication (V2X) helps improve traffic flow and is an important step on the road to automated driving. The new capabilities of future mobility will only be able to develop their full potential with a stable and reliable data connection.
16:30  Future Mobility, What Coming and is Australia Ready?

SCOTT NARGAR
Public Relations, Manager of Future Mobility & Government Relations
Hyundai

17:00  Closing Remarks by Conference Chairman

17:15  Champagne Networking Session

Enjoy a glass of champagne whilst networking with other like-minded individuals on topics that are of most interest to you and fellow delegates.
In the "Talking Traffic Partnership" (https://www.talking-traffic.com/en) the Dutch Ministry of Infrastructure and Environment collaborates with several public and private parties to deliver up-todate traffic information from a wide variety of data sources to road users via smartphones and personal or onboard navigation systems. KPN (The Netherlands incumbent Telco) was selected as IT partner for Talking Traffic, and Klarrio was commissioned to design, build, maintain, and operate the platform. This presentation will:

- Outline the government’s objectives
- Discuss the uniqueness of the platform
- Demonstrate the platform in action

10:15 Morning Refreshment & Networking & Networking

10:30 How Integrating Technology Fosters a New Transport Eco-System

17:00 Closing Remarks by Conference Chairman
Klarrio is a global professional services organisation, headquartered in Europe. We custom build real-time IoT, big data, and streaming analytics solutions using open-source technologies. Leveraging our cloud-native application expertise, we enable our clients to define and accelerate their IoT and analytics implementation through the adoption of new economy business models, disruptive technologies, and cloud-native value-added services on public or private clouds. We provide our clients with four integrated services to help them: develop event-driven, data-centric strategies; build scalable, real-time data handling platforms; operationalise data science applications; and operate data platforms. We also provide general data protection regulations (GDPR) compliance and the needed data security and governance. We have built real-time streaming data platforms for a number of large European corporations, including a massively scalable operational IoT platform.

tm stagetec systems is a technology systems integrator. The company, with its headquarters in Sydney, provides seamlessly integrated digital PA systems and services with a focus on the transport industry.

Using the latest, cutting edge technology, digital PA systems take public address to the next level. The systems can operate on any scale and are highly intuitive for users to operate. From a straightforward system design with one speaker, through to configurations involving many speakers; digital PA provides an easy to use audio system that is effortlessly customised and completely networkable.

digital PA systems from tm stagetec systems offer very high quality announcements with a focus on speech intelligibility and accessibility; including hearing loops and help and information points. As well as public address, the other main areas of expertise within tm stagetec systems are; Passenger Information Displays, Mobile PA and Centralised Monitoring. Visit [www.tm-systems.com.au](http://www.tm-systems.com.au) to find out more.

Transport and Trucking Australia is Australia’s most respected transport industry magazine and was launched 25 years ago, making it the longest running, continuously published Truck and Transport magazine in Australia and remains the leading transport business magazine in the country.

We cover the entire spectrum of vehicles; from heavy duty prime movers to the workhorse rigid medium duty trucks all the way the through to utilities and vans six times per year with a circulation of more than 14500 per issue.

Transport & Trucking Australia’s editorial focus is on the latest industry innovations both here and overseas which will impact the industry and we speak to key decision makers in the truck industry.

Our website [www.truckandbus.net.au](http://www.truckandbus.net.au) is now one of Australia’s leading transport industry websites attracting more than 26000 visitors each week to offer readers of both Transport and Trucking Australia and our bus industry journal, Coach & Bus magazine up to the minute news coverage on both the Truck and Bus transport industries keeping readers and industry professionals up to date with what is happening across the transport spectrum.
Association Partner

The NSW Taxi Council is the peak body for the NSW Taxi Industry. It represents taxi networks, owners and operators, and it also advocates for better outcomes for NSW taxi drivers.

The NSW Taxi Council represents members across Metropolitan Sydney, as well as Country and Regional NSW.

In NSW there are over 4,000 licence owners, in excess of 200 authorised taxi networks, over 5,000 taxi operators and more than 30,000 authorised drivers. Therefore the industry is the livelihood of over 40,000 people and their families.

The NSW Taxi Industry is a major contributor to the state’s public transport system. It provides over 130 million passenger journeys each year and it meets customer travel needs right across NSW. It functions as a door through door transport service that operates 24 hours a day 7 days a week. The NSW Taxi Industry also provides services at times when other forms of public transport either significantly reduce service levels or cease operations altogether. Taxis are often the only form of public transport for some members of the community, and they provide essential transport services to some of the most disadvantaged people in the state. The NSW Taxi Industry was the first private transport provider to offer transport services for passengers travelling in a wheelchair. In fact, our history goes as far back as 1980 when the first wheelchair accessible taxi was established.

Capitalize on this Conference

Looking for the ideal platform to elevate your professional status and strike key business partnerships?

Leverage our limited sponsorship packages to strengthen your brand reputation through consistent and continual branding awareness and take advantage of the plethora of opportunities with high level decision makers.

Partnering through an event sponsorship will enable you to gain:

• Unparalleled industry exposure
• Leads generation and meeting arrangements with key decision makers in the Intelligent Transport arena
• Extraordinary brand visibility, increasing brand awareness and preference
• Long-term business partnerships with leading business partners, customers and suppliers

Please contact Emma Joy at +61 (4) 3103 1748 or email emma@claridenglobal.org to discuss potential sponsorship opportunities or to custom make your own package.

Benefits as Media Partner or Supporting Organization at Intelligent Transport And Mobility As A Service Global Forum 2019

• Enhance your corporate profile and visibility within your industry - Your Company’s logo will be emblazoned on our brochures and disseminated to key EV decision makers across Europe
• Affiliation with an internationally recognized commercial event organizer

Clariden Global events are widely known and trusted throughout the world for providing best value to senior industry executives. Through partnering with selected media and supporting organizations, we are capable of delivering the highest calibre of expert knowledge and key industry insights to the target market.

If you meet the criteria mentioned above and would like to explore the opportunity to partner with us for Intelligent Transport and Mobility-As-A-Service Forum 2019, please Rosanna Smith at +61 3 9909 7310 or email rosanna.smith@claridenglobal.org
